A PAPER FOR THE PEOPLE. The Herald is in the highest respect a Family Newspaper, devocat to the material interests of the people of this County and the State. It circulates extensively, and as an Advertising medium offers unrivalled advantages. For Terms, see first page.

OFFICIAL BONDS.

While suggestions to the Legislature are in order we renew our suggestion that public officers be no longer required to give bond, but that the people at large be required to make up any defaults or deficiencies that may occur. This is the correct theory. Officers are not agents of a few men called "bondsmen," but of the people at large;
and if the people choose incompetent or dishonest men as their agents
and President Haskell and other

agents of a few men called "bondsand conductor. The damage is not
these will come from the solid elements
of society. The press has a "mission
of might" in hastening the development of this public sentiment, and in they should be willing to answer officers were on board. for their conduct and be taxed to make up their deficiencies. And there is the additional argument that the deficiencies would be more likely to be recovered by taxation than by suits on officials bonds .--Newberry Observer.

And we renew our protest against the change suggested by our neighbor, for we are satisfied that his theory is not the correct one. We necessarily the agents of the people at large. Even at our primary elections, men are often nominated who are not the choice of a majority of the people, and certainly not the choice of a majority of the property owners. It would be unfair, then, to make the people responsible for the acts of their so-called agents.

An executor is not required to give bond, because he has the confidence of the testator who appointthe money of men who not only did not choose them, but who actually people-being appointed by the Governor. Would the Observer man. hold the Governor responsible for any default or deficiency on the part of this officer?

If public officers were selected by a majority of the honest, property-holding, taxpaying men who support the government, we could see some wisdom in our neighbor's suggestion. But in our government majorities are dangerous, because they are ignorant and poor, and, so far as property is concerned, irresponsible. The law which is wise in a government administered by a majority of honest white men, may not do where majority is composed of negroes. The trouble with the Observer's theory is, that it is all theory, so far as it relates to a government like ours.

The fact that a bond is required brings forward a better class of candidates than would otherwise enter the field; and the bond begets greater care and fidelity on the part of the officer who gives it. If any change is made, let the bond operate as a mortgage upon the real estate of the sureties.

ANANIAS AND SAPPHIRA.

"And Ananias, hearing these words, fell down and gave up the ghost. And the young men arose and wrapped him round, and they carried him out and buried him."

That's Ananias Melton. Yes, politically, the young men did arise and wrap him round, and carry him out and bury him. Now comes Sapphira Speer, of Georgia, and seeks to finish the work which the young men induced Ananias M., of South Carolina, to leave undone. But the Carolina boys,-and girls, too, for that matter-are ready for him. And they will arise, the boys will, and wrap him round and carry him out, and bury him-just as the Georgia boys have already done. We are anxious for Ananias and Sapphira to be buried side by side, in a hole in the ground-politically, of course. But, we are charitablewe want them to get their deserts, for until they do get their deserts, the devil will not get his due.

"O bury Sapphira S. out in the woods In a beautiful hole in the ground ; Where the woodpecker sings and the bumblebee hums, And the straddlebugs tumble around."

If the Press of the State were as stingy with their columns as the Fair Association is with the money they spend for advertising, where would the Fair be ?- Columbia Register.

We answer, no .where. The Laurensville Herald also has something to say on this subject, and would it not be well if the entire Press, press this matter on the attention of the management, by this means they may be impressed.

A COLLISION AT PROSPERITY.

(Special Dispatch to The News and Courier.) PROSPERITY, November 19 .- The vest bound passenger train, No. 53, Conductor Isaacs, struck freight this afternoon about 2 P. M. at Prosperity. The air-brakes on enger train failed to work and the train passed the depot at full speed, striking two flat cars of freight at the west switch, which was not clear. One flat car was demolished and some valuable agricultural machinery on the slightly injured. The head-light, smoke head and pilot of the engine were knocked off. Engineer Lowe Sullivan jumped off after the engine had been reversed. Three freight trains with the up and down pastice of the coming storm of public opinion against the monstrosities til 6 P. M. > There is a constant effort on the part of that grim monster "Disease" to become master of mortal man. Only a careful observance of natural laws can render his efforts unavailing. Yet too often injudicious excesses, sudden changes, too great exposure, improper food or other abuses of nature open the gateway and Disease gains a victory. Sometimes its mastery is so complete that Nature of herself can never effect a dislodgement. In such instances reinforce nature with a judicious use of Brown's Iron Bitters and we guarantee, in a short time, all disease will be vanished.

Major Earle denies that he and Wallace were at the White House with Emory Speer, though they were there at the same time. He is not in love with the Speer-Melton-Combination.

Remember the adage, money saved is money made. In our terrific struggle we have followed the hard, straight and unbending rule of aggression and progression, that has always commanded prestige, popularity and prosperity. Every man, woman and child, panting for the earliest and greatest measure of success in the shortest space of time, will gravitate to that spot called head quarters, avoiding high price competitors, striking direct at rock bottom. And we appealing to the sensitive nerve of the people, the pocket book, propose giving the very best value for money down. Our startling quotations for November must command the careful attention of close buyers. Here are values that will be appreciated when compared with prices of others. Here are the sledge hammer and corn and cob crushers that will please and astonish buyers.
